A Startling Admission.

In New York City, for five consecutive years, the proportion of Deaths from Consumption has been three in every Twenty Persons

Epidemics of Cholera Yellow Fever and other diseases of similar character so terrify the nation as to cause occasion wide spread alarm and receive the most careful consideration into their prevention and cure while consumption receives scarcely a thought yet the number of its victims sinks into insignificance when compared with those of consumption. Comparatively few people are swept off by other loathsome diseases than are annually fed to the insatiable maw of consumption.

Prevention is admonished. Cod liver oil was for a long time given in all such cases but the prejudices attending its use coupled with its nauseating taste has led many sufferers as well as the public at large to place their main reliance in Dr Pierce's Golden Medical Discovery. Its discovery directly attention to its wonderful effects in severe and lingering cases and we believe that fully 95 per cent of cases of consumption can if taken in the early stages of the disease be cured with Dr Pierce does not ask people to believe until they have proved it for themselves A pamphlet has been published having the names addresses and photographs of a large number of those cured of consumption bronchitis lingering cough asthma chronic nasal catarrh and kindred maladies which will be mailed free to those sending to Dr Pierce their name and address on a postal card. Or you can have it mailed in the form of book of 160 pages by sending to Dr Pierce 21 one cent stamps and 4 cents in stamps. You can then write the cured and learn their experience.

WEATHER PROPHET FOSTER predicts heavy rains from the 11th to the 20th, and then a warm wave will sweep over the entire country

If you pay rent you pay income tax, if you receive rent you do not pay income tax Thus say the wise men of the United States supreme court

SUDDEN death coming as it has within the last few days to two of our well known business men reminds us how uncertain is the span of life and how unexpectedly it may be cut short

THE sound of the hammer and the saw and the trowel in the different parts of the city bears evidence of the beginning of the building boom which promises to be greater this summer than it has been for several years past

THE lenten season will end this week Easter will be here next Sunday Then society will put on its gay garb again and renewed activity will be seen in every part of the social world, which has been pretty dull in this city ever since the beginning of Lent

THE old soldiers, whom we all love to honor, are one by one passing from our midst The reports of the department of Indiana G A R, recently forwarded to national headquarters show 580 posts in this state, with a total membership of 21,918, a net loss of 2 207 during the year

THE state conference of charities which was to have held its fourth annual session at Fort Wayne in the last week of April, has postponed the meeting until October This has been made necessary by the inability of the local committee in this city, because of unavoidable hinderances, to make the necessary arrangements

THE income tax law got a pretty bad black eye at the hands of the supreme court of the United States An even half of the court believe the law is unconstitutional and therefore null and void in toto The whole of the court strikes out the best and most equitable portions of the law and leave it in a mangled and forlorn condition

THE issue of last Sunday's Evansville Courier was printed on yellow paper and contained twenty four pages of interesting local and miscellaneous reading matter It was commemorative of the Easter holidays and was an issue which was creditable to its editors who are getting out one of the best newspapers in southern Indiana

LAST evening the Fort Wayne Freie Presse our excellent evening German contemporary appeared in a handsome new dress Under the management of Mr Carl Sauer the Freie Presse has been greatly improved and is now an all home print, eight-column folio, 24x39 inches in size and full of interesting local reading matter THE SENTINEL wishes the Freie Presse success and prosperity

PRESIDENTIAL politics may seem to be a long way ahead Congress is not expected to convene until December, and the national conventions are more than a year distant Nevertheless movements on behalf of various candidates are displaying considerable activity and some of them are working up their own presidential booms in great style only to see them "bust when the decisive hour comes

IT is the intention of the city authorities to push improvements at the Swinney park and a force of men will be put there this week The park will be a breathing spot a place for recreation during the hot summer months and its improvement will be a good thing for our city Work on it just at the present time should be pushed because it will furnish employment to the many who are out of work

AGAIN we arise to remark, as we have done frequently heretofore, that the board of public improvements would be doing a good thing if it were to erect a dozen or more drinking fountains at different points in the business centers of the city During the summer days that are now coming so rapidly these fountains, where man and beast can get a cool, refreshing drink of water are a public blessing and the city needs more of them than it has at present

THE effect of the supreme court decision on the income tax law so far as the treasury department officials can determine after a hurried estimate made Monday afternoon will be a reduction of about one half in the revenue originally estimated as obtainable from that source thus making the annual revenue to be expected about $15 000 000 The original estimate of $30 000,000 per year was based on the assumption that the law would be held to be constitutional in all its provisions Collectors of internal revenue will be notified of the decision and instructed to make whatever corrections may be necessary through the decision rendered, in the blank form furnished them by the commissioners of internal revenue No new forms will be issued and the work of preparation for the collection of the tax will proceed without delay

Will the next President come from the west? Dr Price's Baking Powder is favorite in every Western State

Inheritance and Income Taxes

Of interest to Americans at present will be Lord Playfair's paper on this subject in The North American Review He calls attention to the fact that for the first time in English history the budget recently prepared by Sir William Harcourt, chancellor of the exchequer, makes a bold and permanent application of the principle that large estates, both personal and real, should pay death duties in proportion to their size " In accordance with this idea, Sir William's scheme provides that the person who inherits $500 shall pay to the government 1 per cent, or $5 One inheriting property worth $5 000 must pay the government $100 on taking possession An estate worth $50 000 must pay 3 per cent, and so on An estate of $5,000,000 is taxed 8 per cent, and the inheritor must therefore pay to the British government $400,000 What a cry would be raised in this country if such a tax should be attempted!

In England Lord Playfair tells us it is a plainly understood principle that the rich must pay taxes in greater proportion than the poor They must procure licenses for keeping carriages, for displaying armorial bearings and even for the right to have a footman with powdered hair There seems to be no question about the justice of the principle.

Lord Playfair affirms that the income tax scheme both in the United States and Great Britain plainly contemplates a graduated scale In America under the new tax law all incomes below $4 000 are exempt. In England all above $800 are taxed It is to be noted that Lord Playfair says ' These changes in the system of English taxation have not been made without violent opposition by the wealthy classes. The adoption of graduation is a sign that democracy has largely increased its power in English politics " He further declares that if accumulated wealth is unwilling to pay public expenses according to ability it will lead to disastrous results in the way of increasing popular belief in the "wild ravings of communists and anarchists." This growing tendency induced the Liberal government of Great Britain to concede progressive death duties Lord Playfair says wealthy people could transmit estates intact to their heirs by getting their lives insured for enough to cover the death duties He also quotes this saying of the Earl of Derby 'I have learned more and more forcibly the uselessness to put it on no other ground of attempting to resist the progress of popular ideas, and I have come to think more and more highly of the moderation, the fairness and the general justice with which the masses of men including all conditions of life, are disposed to use their power '

The finishing touches already put to the modern monitor Amphitrite at Norfolk mark the advent of a new vessel for the United States navy She is designed for coast defense, but she can go as far as Cuba or Nicaragua

In all the affairs of this life it is a very important thing to have plenty of tallow Want of tallow was what kept the St Paul from being successfully launched.

Li Hung Chang got shot just at the right time to divert the attention of the Chinese government from the disctop snories in his state bookkeeping

THAT DEATHLY FEELING

People Often Speak of Having "Deathly Sensations.

What Are the Actual Sensations of Death?

Are There Really Any Feelings of Pain When Death Comes?

Everybody has heard or used the expression, that deathly sensation

By it is meant the awful sinking sensation—the feeling of terrible dropping away from us as it were of vitality as the life principle wanes and ebbs toward death

Death itself is doubtless painless but the awful sinking sensation which precedes death has been described as worse than pain

Nervous people frequently have this dreadful feeling and many who have been through the experience will recognize at once the graphic description of Mrs B J Stockwell of Wakefield Vt, who says

I had complete nervous prostration and was confined to the bed most of the time for two years It took the form of mania and I thought I must soon die It began as nervousness and kept growing worse

'I was unable to do any work There were times when for a week I did not sleep hardly any When I got up I was more exhausted than when I went to bed I had a terrible deathly sensation worse than any pain

'My stomach was terribly weak and my food distressed me constantly I was completely prostrated I paid large sums of money for doctors and treatment but they did me no good

'I employed the best medical advice in this state and New York, but got no better Then we saw Dr Greene's Nervura blood and nerve remedy advertised and I determined to try it

MRS B J STOCKWELL

I had not used one bottle before I felt better I continued to steadily improve under its use I am now a well healthy woman able to do my own work I have good digestion and appetite, sleep well and am always cheerful

'This is what Dr Greene's Nervura blood and nerve remedy has done for me I heartily recommend it to every body It is a wonderful medicine '

The whole world is amazed at what is being done by Dr Greene's Nervura blood and nerve remedy Nothing like it has ever been known before It makes the nerves strong as steel the blood pure and rich the skin soft and beautiful, and gives to the eyes that brightness and sparkle which indicate perfect health

There are thousands upon thousands of weak, nervous people depressed in mind and debilitated in body, particularly at this season of the year, who can be made strong and well by this splendid remedy It will be found the best spring medicine that one can take, for nothing so quickly and surely gives strength of nerve, invigoration of blood and healthful action of all the organs as Dr Greene's Nervura blood and nerve remedy

It is not a patent medicine, but the prescription of the most successful living special st in curing nervous and chronic diseases Dr Greene, of 35 West 14th St, New York City He has the largest practice in the world, and this grand medical discovery is the result of his vast experience The great reputation of Dr Greene is a guarantee that this medicine will cure, and the fact that he can be consulted by anyone at any time free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine

MIXED THEM UP.

The Internal Revenue Officials in a Grave Quandary.

The Supreme Court Decision in the Income Tax Case Plunges Them Into Uncertainty

WASHINGTON April 9—The decision of the supreme court yesterday in the income tax case has plunged the internal revenue officials into almost inexplicable mysteries and trouble and the more the decision is studied the greater seems to be the difficulties attending a clear understanding of its scope The declaration that rents and incomes from real estate are exempted has opened up questions very difficult of solution The question has arisen for serious consideration to include not only rents proper, but all profits of whatever character growing out of real estate, including farm products, timber, coal and all mine products within the exempt class, so that all real estate including buildings thereon, with whatever else is held by law to be a part of the realty will be entirely exempt from tax Whether losses sustained through bad rent debts, the amount of expenses incurred in collecting rents or repairs on houses are to be deducted from income is also a moot question Under the decision rents are not to be included in assessing the income tax

BOARD OF WORKS

They Make Final Decison on a Number of Streets

The board of public works held another meeting yesterday afternoon and decided to pave Hanna street from Creighton avenue to Ninth street with vitrified brick There was quite a remonstrance but it was disregarded as it did not cover two thirds of the resident property holders

The resolution to pave Lewis street from Calhoun street to Lafayette street was also confirmed, although nearly two thirds of resident holders of property remonstrated The pavement will consist of four inches of vitrified fire brick, two inches of sand and six inches of concrete

The new sidewalk for Clinton street was thoroughly discussed and a remonstrance read from some of the property holders against the pavement but the board confirmed the resolution This means a flagstone pavement on both sides of Clinton street from Berry street to Columbia street

A resolution to grade the alley between Eliza and Hayden streets from Ohio to McCulloch streets passed

Other routine business was transacted

The labor question is not more important than the pure food question The latter can always be settled by using Dr Price's Baking Powder

LOOK OUT FOR ALLISON

The Long Headed Cincinnati Enquirer Discusses Republican Politics

The dangerous candidates for the Republican presidential nomination are Allison of Iowa Reed of Maine and Ben Harrison It is the belief among the long headed that within the next year whatever there may be now of strength for McKinley will have been largely dissipated because it will then be apparent that the Republicans cannot hold the northwestern states with a candidate committed to ultra protection theories

Up to about the close of the recent congress Reed was far in the lead Like others however, who have had the presidential itch, he was forced to a showing which he would much preferred to have passed over This was his vote on the proposition for gold bonds The vote, though given no doubt with honest sincerity, lost him perforce a strong following in the far west It has now drifted away, and the leaders from such quarter are beginning to more than seriously consider Allison

It is evident that as Reed loses strength Allison acquires it He is, happily, not on record with ultra views on either the tariff or silver It is recognized even by the more ardent friends of the principle of protection that the Republican party cannot afford at the next election to make a campaign on radical lines It is because McKinley is the apostle of protection that he is weak The strength is his gentle character, good looks and noisy friends

Mr McKinley will also be weakened by the espousal of his cause by Mayor Strong of New York Strong is leaning to such a point of independence that neither his friends nor his enemies know how to place him What is not wanted is such a man in the White House, and to the extent of such influence Ohio's governor suffers

Every Woman Told Her Age

A large squad of Kansas City society women strolled into the registration of fice and told their ages, contrary to all rules governing such matters among the feminine persuasion In return for this noble sacrifice they received the little yellow slips entitling them to a say so in the coming election They did not wear bloomers The fair creatures walked into the city hall with an air that meant, Well, we'll be on the police force in a few years '

Over 75 women of both shades registered yesterday making the number in the vicinity of 1 600 altogether —Kansas City Times

McKinley and the Presidential Lightning

When asked about his presidential aspirations in Atlanta recently, Governor William McKinley of Ohio said

As to that I prefer to say nothing It is true that many friends from all parts of the country have come to me with assurances of support, and that is of course highly gratifying What shape things will take in 1896, so far as party nomination is concerned, I cannot, of course, say I am not talking politics or even thinking politics these days—am out of it, you might say '

Sizing Up His Ability.

As is well known, Congressman Allen of Mississippi is the humorist of the house and he is undeniably funny at times He has no rivals but one or two or more of his colleagues have a lingering idea that they ought to share a few of the honors with him One of these was talking to him one day in the cloakroom

I don't see why it is ' he said that you make such a hit with your speeches You never make one that the whole house doesn't come down and sometimes when they laugh I don't see very much to laugh at Now, some things I say I think are pretty fair and in my own district I have quite a reputation as a humorous speaker Here, though I don't seem to be able to make them laugh and I try my best "

I suppose you want to, replied Mr Allen ignoring the other portions of the gentleman's remarks

Well, yes I shouldn't object," admitted the gentleman

Do you want me to tell you how?

You could do it if anybody can Of course I'd like to have you tell me '

Well explained Mr Allen in an almost tragic whisper try to make them cry "—Detroit Free Press

A DULL DAY.

Nothing Doing of an Unusual Nature on Rail or in Shop.

A Few Locals and Some Personal Gossip Was the Extent of the Reporter's Catch on His Rounds.

Fred Boegle, the moulder, is visiting relatives in New Haven.

John Kelley, of the Pittsburg boiler shop, is off duty on account of sickness.

Sousa's band left over the Wabash this morning. They occupied a special car.

Blacksmith Al Throckmorton is again afflicted with rheumatism and is off duty.

Blacksmith Ellis Mercer, of the Bass works, is confined to his home by sickness.

William Mills, after a week's illness, reported for duty at the electric works this morning.

Miss Lida Doorman, of the electric works, is off duty on account of the death of her father.

Engineer Cooper and Firemen Frase, Murray and Bedson, of the Nickel Plate, are enjoying a few days' rest

F. H. Wolf, Nickel Plate brakeman, who had a finger crushed last week, resumed his duties on the road today.

Brakemen W. C. Reffelt and W. Imbody have resumed their runs on the Nickel Plate, after a few days' lay off.

Conductor Cliff Ellenwood's condition remains unchanged. He is still bedfast, suffering with neuralgia of the stomach.

Gus Freimuth, for some time employed in the machine room at the electric works, has resigned to engage in other work

Henry Crawford, who has been afflicted with a severe cold, is better and this morning resumed work at the electric works.

The new Findlay, Fort Wayne and Western engine took the local freight out this morning, with Engineer Shea at the throttle

William Frick, foreman of the rim department of the Rastetter bending factory, and Miss Katie Slasher will be married this evening.

Nickel Plate Conductors George Hirsh and F. Stone, who were taking a short vacation, returned to their respective trains yesterday.

Wabash engine No. 19, recently thoroughly overhauled, has been assigned to freight duties on the first district, Toledo to Andrews.

Herman Santa, of the Wabash shops, and Mrs. Banta will leave in a few days for Chicago, where they will be the guests of relatives about ten days.

George Wilkinson and Henry Rehling resumed work at the Bass machine shop this morning, having recovered from their recent sick spells.

Nickel Plate Brakeman Shragg was taken sick at Bellevue yesterday and had to be relieved from duty. A brakeman went out from this city to take Shragg's place

Charles E. Wright, the genial and efficient clerk ot the Wabash shops, is being congratulated today upon his arrival at man's estate, he being now twenty-one years old.

Henry Riter, one of the veteran machinists of the city, has recovered his health and this morning resumed his old position in the Bass shops after an absence of two months.

J. M. Gaskill, Patrick Welsh, C. Christenson, P. Weismer and C. Kruse, of the Pittsburg paint shops, are off duty on account of a scarcity of work in their particular line.

Pittsburg trainmen report high water in all the streams in Central Ohio. That section of country was visited by a heavy rain storm which lasted all Sunday night and part of yesterday.

Mr. and Mrs. George Patterson and children, of Wellsville, Ohio, are visiting relatives in this city. Mr. Patterson is a machinist and formerly worked in the Pennsylvania shops in this city.

O A. Shauman, for several years agent of the Wabash at Roann, and later manager of the Western Union telegraph office at Wabash, has been appointed clerk of the steamer 'Lawrence," which the Graham & Morton people are running between Benton Harbor and Chicago, in place of the ill fated "Chicora"

Superintendent Worchester and Traveling Passenger Agent Brown, of the Lake Shore road, are registered at the Randall today.

Dick Regal, of the Bass machine shop, went out angling Sunday for the first time this season, and returned home with a fine mess of sun fish, after getting thoroughly drenched with rain

Fireman Staples, of the Nickel Plate, who had the misfortune to sprain one of his wrists by a fall three weeks ago, has so far recovered as to be able to resume his work. He reported for duty yesterday.

Ticket Receiver J. C. M Baker, of the Pittsburg, is fencing his property on South Calhoun street, preparatory to putting out a quantity of small fruit plants, such as grapes, blackberries, raspberries, etc.

Superintendent of Motive Power G. L. Potter, Master Car Builder J. A. Graham and Chief Draughtsman William Stephen, of the Pennsylvania, left last night on No 8 for Altoona on business for the company.

The work of putting in a new transfer table at the Pittsburg machine shop is now in progress. The table will be four feet longer than the old one, which was too short for the convenient handling of modern engines.

Extensive improvements have been made to the shops of the Baltimore and Ohio Southwestern at Washington, Ind Among other things an electric plant has been put in and the shops were lighted by electricity Saturday night for the first time.

Judge R. S Taylor will leave this evening for New York. Business connected with the Electric corporation takes him to that city. Messrs. R. T. McDonald, C S Knight, Brainard Morrison and J. J. Wood, of the company, are already in New York

Indications are that the New York, Pennsylvania and Ohio will get out of its financial troubles. Arrangements have been made to exchange its $8,000 000 of prior lien bonds, drawing 6 per cent. interest, for an equal amount of 4½ per cent. bonds, payable in forty years.

Contractor John Sultzer left this morning for Rome City, where he will build a couple cottages and repair some others. Edward Gilmartin was not at the depot this time, and Mr Sultzer got upon the right train. It was different two week's ago when Mr. Gilmartin lead the way.

Nickel Plate engine No. 30, which had been in service on the western division of the line, has been transferred to the eastern division and will hereafter run between Bellevue and Conneaut This change necessitated a change in the crews of other engines and Engineer Huxley and Fireman Hurlbert, who had No. 30 have taken engine No 20, and Engineer Joseph Bracht and Fireman Street, of the latter engine, have taken No. 4.

CLASS X ENGINE MAKES A GOOD RUN

The Indianapolis Journal says: "Friday last a remarkably fast run was made on the Panhandle by train 6, the east-bound express. The train, which consisted of twelve cars, left Steubenville thirty minutes late, and made the run from Wheeling Junction to Pittsburg, forty two miles, in fifty five minutes. The train was hauled by a class X engine (built at the Fort Wayne shops) Only those who are acquainted with the road between Steubenville and Pittsburg can fully appreciate what this run means No wild or reckless spurts, it is stated, were indulged in, but the time was made steadily up and down hill, the fastest run being made between Bulger Summit and Willow Grove, where for some distance a mile a minute was maintained"

WILL ADOPT TONNAGE METHODS

The Panhandle company has reached such favorable results through the tonnage system of making up trains that the plan is to be introduced on the Pittsburg, Fort Wayne and Chicago lines, says a Chicago paper, and the same authority goes on to say. "The difference in the pulling power of the locomotives of the Fort Wayne does not amount to much, and when an engine failed to take its train over the hill it was owing to the fact that the total tonnage in the train it was hauling was occasionally equivalent to thirty ordinary loads. It is an easy matter to perceive how, under such circumstances, one engine was sent out with from three to four cars less than its pulling capacity, while the engine of the following section might have, with the same number of cars as the first, a much heavier train to contend with, and consequently fail to get over a grade or loss time, causing delays and annoyances that could not be well obviated In the future all Fort Wayne class R engines will be loaded on a tonnage basis, with 1,100 tons as the limit The yardmasters and conductors have been instructed to get the light weight of each car, the weight of the load, and then add eight tons to each car as an allowance for resistance. In this simple, methodical manner they are enabled to tell how many cars are required to make up a train, and they keep on adding cars until they reach the limit of 1,100 tons. If the cars are loaded with heavy material, such as coal, iron, stone, coke or shelled corn, the number of cars in the train will be less, and when the material that constitutes the load in cars is bulky and light, a greater number of cars can be handled in one train section."

LOVE AND TAXES.

It would be interesting to know if there is any connection between the unusually large number of matrimonial engagements that are being announced these days and the movement to tax bachelors Let's hope not for true love's sake —Boston Herald.

I was afflicted with catarrh last autumn. During the month of October I could neither taste or smell and could hear but little. Ely's Cream Balm cured it —Marcus S Geo. Shantz, Rahway, N. J.

A REMARKABLE CURE.

A CASE OF PILES OF EIGHTEEN YEARS' STANDING.

Cured by the Pyramid Pile Cure

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be depended upon with certainty to cure obstinate long standing cases, and that is the Pyramid Pile Cure.

Endorsements and testimonials are received daily from men and women whose integrity and reliability are above question and in this connection a letter received from the Rev. Jas. H. Wesbrook of Roann, Mich, may be of interest to pile sufferers who have sought in vain for a cure. He says:

I have used the Pyramid Pile Cure and I know that it is all that is claim for it I had been troubled with piles more or less for about eighteen years and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure It gave almost instant relief and I have been free from piles ever since. Rev. Jas. H. Wesbrook

The remedy seems to act equally well in every form of piles, blind, bleeding, protruding or itching. It stops all pain almost immediately, allays irritation and removes constipation, and anyone who has suffered the annoyance and pain of a rectal trouble will appreciate the excellent results which invariably follow the first application of the Pyramid.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich, and for sale by druggists everywhere.

Huckleberry Griddle Cake.

One half pint huckleberries, 1½ pints flour, 1 teaspoonful salt, 1 tablespoonful brown sugar, 2 teaspoonfuls Royal Baking Powder, 2 eggs, 1 pint milk Sift together flour, sugar, salt and powder, add beaten eggs, milk and huckleberries (washed and picked over) Mix into batter that will run from pitcher in thick, continuous stream. Have griddle hot enough to form crust soon as batter touches it In order to continue juice of berries, turn quickly, so as to form crust on other side; turn once more on each side to complete baking. Blackberry or Raspberry Griddle Cakes in same manner.

Apple Fritters.

Four large, sound apples, peeled, cored, and cut each into 4 slices, 1 gill wine, 2 tablespoonfuls sugar, 1 teaspoonful Royal Extract Nutmeg Place slices of apples in bowl with sugar, wine and extract, cover with plate, set aside to steep two hours, then dip each slice in Common Batter, fry to light brown in plenty of lard made hot for the purpose, serve with sugar.

Buckwheat Cakes No. 2.

To 1½ pints pure buckwheat flour, add ½ pint each wheat flour and Indian meal, 3 heaping teaspoonfuls Royal Baking Powder, 1 teaspoonful salt, 1 tablespoonful brown sugar or molasses. Sift well together in dry state, buckwheat, Indian meal, wheat flour, and baking powder, then add remainder, when ready to bake add 1 pint water or sufficient to form smooth batter that will run in a stream (not too thin) from pitcher; make griddle hot and cakes large as a saucer. When surface is covered with air holes it is time to turn cakes over, take off when sufficiently browned

Quick Buckwheat Cakes No. 1.

To 1 pint buckwheat flour, while dry, add 2 heaping teaspoonfuls Royal Baking Powder, teaspoonful salt, 1 scant tablespoonful brown sugar or New Orleans molasses to make them brown, mix well together, when ready to bake add 1 pint cold water or sufficient to form a batter, stir but little, bake immediately on hot griddle. The baking powder should never be put into batter, but always mixed with flour in dry state Some prefer addition of a little wheat flour and Indian meal, like No 2

I find the ROYAL BAKING POWDER superior to all the others in every respect. It is purest and strongest.

LOTTIE COLLINS AND THE WAITER.

She Ordered Simply Beer, but He Brought Up Champagne.

Lottie Collins had an experience in one of the western towns she visited during her professional tour. After the performance she went to her room in the hotel and ordered a lunch to be brought up for herself and one or two of the female members of the company The waiter who responded to the call bell was a white man. They had ordered a very light repast, with just a bottle of beer to top it off, but when the young man returned they were surprised to find themselves served with a sumptuous suppor and three bottles of champagne.

Miss Collins was surprised. So were the others. The waiter began to stutter, grow red and confused, still standing at the door with the heavy tray in his hands. The more the ladies pried into the business the redder the young man grew, and he was probably glad when the heroine of "Ta-ra-ra Boom-de-ay" opened the door and allowed him to disappear, with only a kick of a verbal nature.

There was an inquiry into the affair on the part of the management of the company, and it was found that the young man was the son of a rich jobber of the town and a society swell. He had bribed some one about the hotel to allow him to impersonate the waiter serving the actress at her room and had taken that course to obtain access to her privacy.

An irate manager presented himself the next morning at the office of the jobber, and the youth made another call at the actress' room that night. He was conveyed by his father, however, who made him get on his knees and offer a very abject apology for his misconduct. —Washington Post

TWENTY-THREE DEAD.

Fatal Disaster in a Coal Mine Near Whatcom, Wash.

An Explosion Results From an Accumulation of Fire Damp While the Men Were at Work in the Mine.

WHATCOM, Wash., April 9.—A terrible explosion occurred last night in the Blue Canon coal mine, on Lake Whatcom, fifteen miles from this city, which resulted in the death of twenty-three persons.

The Post Intelligencer correspondent returned at 2 a. m. from the scene of the disaster and is in possession of all the particulars now obtainable. In the blacksmith shop near the tunnel lie the blackened bodies of twenty-three dead miners, while only two of all who were in the mine when the explosion occurred live to tell the story of the frightful catastrophe and their own miraculous escape. The following are the names of the killed:

Mine Superintendent David Y. Jones, leaves wife and child; Andrew Anderson, leaves wife and one child; James McAndrews, leaves a wife; James Kirkley, leaves a wife; Kirk Clinske, leaves a wife and four children. All the others were single men. Their names are as follows: Charles Silverman, C. Harnsburg, William Lister, Samuel Olsen, James McNulty, J. A. Morgan, Martin M. Blum, S. T. Chase, Charles Carlson, H. Harall, Philip Rinkle, William Evans, J. Williams, Alexander Hendrickson, Ben Morgan, George Roberts, Thomas Conlin and Lucas Lotzka. The two men who escaped are: Edward Gollen, of Fair Haven, who was working at the outer switch in the mine in company with George Roberts and James Keane, the latter was working with Ben Morgan in room 16 of the gangway, at the outer most of all works in which work was being carried on.

The explosion occurred shortly before 3 o'clock when the shift would have been changed and the miners were already climbing the steep hill from the bank house to take the places of the men killed. This disaster was undoubtedly caused by an accumulation of fire damp, which was exploded by a blast in the breast of the gangway. The faces of the men who were working in the breast are badly burned, but a majority of those who were working in the rooms off the gangway were only slightly disfigured by the fire and many of them not at all. Physicians and miners say that the men working in the breast must have been killed by the shock of the explosion, while the others succumbed to the fire damp as they slid down from the rooms to the gangway, then filled with deadly gas. This gangway is reached by a tunnel 180 feet long and the intersection gangway to the breast where the explosion took place is about 1,000 feet. The main air shaft reached the gangway about 100 feet from the tunnell and air is supplied by water power and which was not affected by the explosion.

Keane, the only miner who escaped from any of the rooms says that he was not stunned, or even thrown down by the shock, though Morgan, who was working with him, was killed. Keane' light was not extinguished and he saw no fire. He slid down the chute to the gangway, losing his light in some way, and managed to make his way in the darkness in some miraculous manner along the poisonous passage, over dead bodies and piles of coal, lineened by the explosion, to the open air, but before he reached the entrance the work of rescue had already commenced. Out in the tunnel he met a party of brave miners grooping their way inward as fast as the escapes of the poisonous gas permitted.

This party and others following pushed their way into the mine and carried out one by one the bodies of the dead miners as they came upon them scattered along the gangway. The first body found was that of a mule driver, lying beside the dead animal, 950 feet from the main entrance. From here to the fall of the gangway, a distance of about 300 feet, bodies were scattered along as they fell from the chutes leading to the rooms.

Most of the bodies showed little evidence of a struggle and in most instances death apparently came quickly. McAndrew's body was found buried under a slide of coal, and McNulty was upon his hands and knees about twenty yards from where he had been working and his handkerchief was tied over his nose and mouth.

When the correspondent left the mine, shortly before midnight, the work of washing the faces and hands of the dead men had commenced. All that is now possible is being done to alleviate the distress of the families of the deceased. The president of the company, A. E. Downs, is now in New York, and has been notified by wire. Coffins have been ordered and after the inquest tomorrow the bodies will be brought to this city.

SILVER IN DEMAND.

Japanese and Chinese Negotiations are the Cause of It.

LONDON, April 7.—The Standard today says that silver yesterday was in good demand owing to the news that the Japanese terms for peace with China stipulate for the opening of a large section of China to foreign trade. It is believed that this will lead to an increase in the demand for silver in the east.

A TAME AFFAIR

Was the Firing Upon a Boston Steamship.

The Spanish Gunboat Only Used Blank Cartridges and Meant in Its Sea Horse.

BOSTON, April 9.—The steamship Etheldred, of the Boston Fruit company, which was fired upon by a Spanish gunboat on her outward voyage to Jamaica, arrived at her dock early today. She was immediately boarded by a representative of the Associated Press, who interviewed Captain Hopkins, her commander, regarding the affair. The captain said: "On April 1 we were proceeding on our regular course, when at 11 o'clock in the forenoon, off Cape Mayal, we sighted a vessel, which we could not at first make out. We were about a mile from shore. Suddenly the stranger fired a blank shot across our bows. This caused the greatest excitement on board my boat, the three passengers, a gentleman from Quincy and two from Chicago, being considerably alarmed. Of course, when the shot was fired, I stopped and allowed the vessel to come up within hailing distance of us. I found it was a gun boat, but I could not clearly distinguish the name. The first part of it was "Nueva," and for the life of me I could not make out the rest of the word. When she saw the British flag floating over my vessel she changed her war like attitude and quickly steamed past us. We then proceeded to Jamaica where I laid the matter before the proper authorities."

BLOCKADE REMOVED.

The Rock Island Finally Gets Its Trains Through.

The Great Storm Spreads Over Colorado, Causing Heavy Loss to the Stock Raisers and Farmers.

PUEBLO, Col., April 9.—The Rock Island, after an eighty hours' blockade, demolishing two rotary and one wedge snow plow, besides working a large force of men with shovels, got their delayed trains through last night, carrying a sorry looking but happy lot of passengers. The road encountered the worst drifts a few miles east, and west of Limon Junction, requiring twenty-four hours' hard work to open up four miles of track. Dr. Logan has just returned from a professional trip covering the major portion of the country for forty miles east and northwest, and estimates the loss of live stock in the territory mentioned at from $40,000 to $60,000. He says dead horses, cattle and sheep are piled against fences running east and west, and hundreds are found out on the open prairies.

CHEYENNE, Wyo., April 9.—Trainmen report that there are hundreds of cattle lying dead alongside the railroad tracks, where they drifted during the storm and died.

TRUSTEES APPOINTED.

Governor Matthews Names Two Boards.

No Change in the Superintendency of Any State Institution—Civil Service Will Rule.

INDIANAPOLIS, April 9.—The governor today appointed the following trustees for state institutions at Indianapolis: Deaf and Dumb—Chas. E. Hough, Indianapolis; Thomas L. Brown, Bedford, democrat; Samuel A. Honner, Greensburg, republican.

Blind Institute—J. L. Allen, Covington; Nelson Bradley, Greenfield, republican; John F. Hennessey, Indianapolis, democrat.

The democrats will control the one and the republicans the other institution, but there will be no change in superintendents. Civil service is to be promoted.

PIONEER GONE.

David Hough Dies at a Ripe Old Age.

Was a Pioneer Politician of Ligonier and President of the Board of Trustees of Insane Hospital.

LIGONIER, Ind., April 9.—David Hough, one of the leading citizens of this county and a well known democratic politician, died at his home near this city this morning. He was president of the board of trustees of the southern hospital for the insane. He was seventy-four years old and was sheriff of Noble county from 1871 to 1875.

UNDER PILES OF BRICK.

Fourteen Men Caught in the Collapse of a Building.

Five of Them Killed Outright and Four Seriously Injured, Two May Not Recover.

WHEELING, W. Va., April 9.—This morning shortly after 8 o'clock, the five story business house of Chapman & Sons, on Main street, in the wholesale district, and the adjoining four story hardware establishment of T. T. Hutchison, fell in suddenly, without any warning whatever, and buried eight persons in the ruins. The five story brick block was in course of erection. Adjoining, at the corner of Market alley, was a four story brick block owned by T. L. Hutchison & Co. The stream on the Hutchison building caused by the new building going up, was too much and, at the hour named, the Hutchison structure commenced to lodge outward and the two buildings caved in with a crash. Fourteen men were in the two buildings at the time, of these six got out without injury. Five of these, W. H. Chapman, Sam Keano, Walter Chapman, W. V. Clifton and Newton Wilson, were in the Chapman building and, being near the front, succeeded in escaping without injury.

The work of rescue commenced immediately and by 10 o'clock T. T. Hutchinson, the merchant, was taken out with two ribs broken and internal injuries, which, it is feared, will prove fatal.

The next person removed from the debris was J. A. Ford, a salesman in Hutchinson's store, who was badly injured, though conscious.

Next the dead body of P. J. Horan, a clerk, was taken out.

Then followed the removal of Benjamin Pritchard, of Buchanan, W. Va., who was badly crushed and may die.

It is now known that Very Rev. Father H. F. Parke, vicar general of this Catholic diocese, is under the ruins. He was on his way to the Catholic from a train when the wall fell. He is undoubtedly dead, as are also Eugene Burch, Bob Winchey and Harry Crowle, who were known to be in the building at the time of the collapse.

"Dad" Williams, a carpenter, was at work upon the building when it fell, and was painfully but not dangerously injured.

HANDY WITH GUNS.

A Marshal and a Debtor Have a Duel.

And Albert Larson, an Innocent Party, Receives One of the Bullets in His Body.

SAN JACINTO, Cal., April 9.—A desperate shooting affray occurred here last night at the South San Jacinto saloon. Three men were shot and two of them are mortally wounded. Charley Marshall, of Bowers, and Frank Hamilton, acclaimed deputy sheriff of Cahuilla, did the shooting with 44 calibre Colt's revolvers. Albert Larson, an innocent party, happened to pass at that moment, and received a bullet from Marshall's revolver, which entered his back and passed through the navel and grazed the wrist. He will die. Hamilton claims that Marshall shot twice, the first bullet entering Hamilton's waist and passing out through his right side. Marshall received only a slight wound in his left arm, the bullet entering at the wrist and coming out at the elbow. Hamilton's wounds are fatal. Hamilton and Marshall had an altercation over a debt that Hamilton owed another man.

COLONY ABANDONED.

No Inducement for Settlement in Guatemala.

INDIANAPOLIS, April 9.—Recent articles printed in newspapers telling of profitable fields in Guatemala for American emigrants induced the formation of an Indiana colony, whose purpose it was to emigrate to that country. This colony was to consist of 150 men. Among its members was J. Conrad Bray, who wrote to P. M. B. Young, the American minister at Guatemala, asking for information regarding the great inducements that have been made. Minister Young writes that the country holds but poor inducements to emigrants. The proposed colony will be abandoned.

BIBLES IN CHINA.

Over 100,000 Distributed in the Past Four Months.

STAMFORD, Conn., April 9.—Before the New York east conference Dr. Hunt reported that 100,000 Bibles had been distributed in China during the past four months. A copy of the New Testament was presented to the Dowager Empress, and at his own request a copy of the Old Testament to the emperor. In Japan 50,000 Bibles had been distributed to the soldiers and Chinese prisoners and the emperor has appointed Christian ministers to chaplainize in the army.

"It makes my housework much easier," writes a St. Louis housewife of Dr. Price's Baking Powder.

A Bright Business Outlook.

HARRISBURG, Pa., April 9.—The business outlook is showing marked improvement in this city. The Central Iron works will tomorrow start on double turn and will likely be continued in full operation during the summer months. The Pennsylvania Steel works are storing large quantities of iron, coke and ore in expectation of having all its departments in operation within a short time. The Paxton and Locust establishments are also doing a fair amount of work.

A CLASH IMMINENT.

Strikers Threaten to Resort to Force in Appanoose County.

Only Prompt Interference by the Militia Will Prevent Riot and Possibly Loss of Life.

ATOA, Ia., April 9.—A clash between mine owners and striking miners at the Cincinnati mines, in the southern part of Appanoose county, seems inevitable, unless the militia is ordered out to quell the strikers. It is reported here that another delegation, too strong, is on the way for Mendota, Mo., just over the state line, to join forces with the strikers from Cincinnati, Rathbone, Myatte Jerome and Seymour to prevent the men whom the operators have imported from entering the mines. Notice has been served on the leaders of the strikers that if they did not persuade the operators to open their mines an appeal would be made to Governor Jackson to order out the militia.

POMEROY, Ohio, April 9.—The mining situation at Minersville is growing more serious between the strikers and the strangers employed to take their places and a battle is expected at any time. There have been several shots exchanged already. Seventy-five pounds of dynamite is known to be in the village. At a meeting of the strikers last night it was resolved to continue the strike and force the non-union miners to cease work. Arms are carried openly on the streets, and workmen go armed to work and to the stores. A committee of strikers will wait on the non-union men today when it is expected the matter will come to a crisis. The scene of trouble is three miles above here on the Ohio side at John Williams mine, the largest in Pomeroy Bend.

ON THE WAR PATH.

Apaches Commence an Attack on the Whites.

They Fire Upon Old Man Hiratzo, But Their Aim Is Poor and the Intended Victim Escapes.

PHOENIX, Ariz., April 10.—A band of Apaches is on the war path and they made their first attempt at slaughtering white men last Friday. An old man named Blevins, a noted character of Arizona, his son, 15, and another cowboy were hunting horses near their ranch, eight miles west of San Carlos reservation, last Friday, when they were fired upon by a party of a dozen Apaches, well mounted and armed. The volley struck a wall of rock close to where the whites were riding. They immediately sought shelter and returned the fire, driving the Indians off. There was no loss to either side. The Apaches were under the leadership of Dandy Jim, who was pardoned from the Yuma penitentiary where he was supposed to be dying of consumption. He has been one of the most troublesome men on the reservation.

HAS THE RIGHT RING.

Letter of Bishop Chatard to the Catholics of Indianapolis.

Warning Him People Against the Doctrines of Which Bob Ingersoll Is the Exponent.

INDIANAPOLIS, Ind., April 9.—A letter bearing the signature of Bishop Chatard has been sent to the Roman Catholic congregations of this city. The bishop warns his people against that doctrine of which Colonel Robert G. Ingersoll is the chief exponent. In commenting upon the views of the infidel, the bishop said, without mentioning Ingersoll by name:

"The Bible, which is God's word to us, both foretells these events and relates them as coming about in time. It is precisely for this reason that the enemies of God and His revelation attack it and strive to ridicule it. Impudent and bare faced assertions which have been met and answered time and again by learned men, not mounta books or superficial gatherers of objections, yet sets of the faith, who, though astray, yet were learned."

MET HIS DEATH.

Jacob L. Martin Killed by a Hanna Street Electric Car.

Knocked Down and Dragged Some Distance—Other Deaths and Fatalities.

About 10 o'clock last evening, at the crossing of Buchanan and Johns streets, a street car accident occurred which terminated in the death of Jacob L. Martin.

At the hour mentioned, Hanna street car No 62, in charge of Motorman Morritt and Conductor Spencer, was coming north on Johns street at an ordinary rate of speed. The motorman saw a man standing by the side of the track and supposed he was either going to get on or was waiting for the car to pass. Morritt sounded the gong for the street crossing, but just as the car approached within a few feet of the man he stepped on the track directly in front of the car. The motorman shouted, at the same time sounding his gong louder; but it was too late, as the man was knocked down and dragged considerable distance before the car was stopped. The man was found to be badly injured and was taken to the Hope hospital, where Dr. J. E. Miller attended him. An examination showed that the injuries were probably fatal. Two ribs were broken and there were a number of gashes on the side of the head, besides other internal injuries of a serious nature.

Martin gradually grew weaker until death came to his relief about 5 o'clock and from the hospital the body was taken to Peltier's morgue.

The deceased was fifty-seven years old and came here from Leo about five years ago. He resided at No. 13 Walton avenue with his wife and family and was employed at the Smith & Lee carriage works. He leaves seven children.

Martin was thought to have been intoxicated, but this is not definitely known.

The funeral will be held at Leo Thursday afternoon.

This noon it was reported that Martin had been put off the car previous to the one which killed him. The man at first time was spitting blood and appeared to be suffering from a hemorrhage of the lungs. This adds considerable mystery to the case and would make it almost appear that Martin had it in mind to suicide when he stepped in front of the next car.

COLEMAN.

Mrs. Katie Coleman, of No. 559 East Lewis street, died at her home this morning of inflammation of the bowels. She leaves a husband and two small children. The remains will be shipped to Mackinaw for interment.

FUNERALS.

The death of Philip Doermer, of Pioneer avenue, mentioned in yesterday's SENTINEL, removes another old citizen from our midst. Mr. Doermer was born in Germany, at Wuerner-on-the-Stein, in 1819, and was seventy six years of age. He came to this country at the age of twenty five, in 1844 he came to Fort Wayne and has resided here ever since. Mr. Doermer leaves a wife and four children, Misses Lida and Anna Doermer, Mrs. Fred Seegar and Peter Doermer, all of this city. The funeral will be held Wednesday, at 1:30, from the residence, and a half hour later from the Salem Reformed church.

The pall bearers for the funeral of the late Frederick Beach, Thursday afternoon, will be as follows: Charles F. Muhlke, Henry C. Graffe, Alfred Battersley, H. J. Ash, O. P. Morgan and J. B. White.

OIL GOES UP.

Reaches the Highest Point in the Past Dozen Years.

The Pipe Lines Responsible for the Rise—The Standard Will Probably Retaliate.

PITTSBURG, Pa., April 9.—Oil took another spurt today and at noon the price had jumped to $1.40. This is the highest mark since 1882. At the opening the Standard advanced the price for cash oil seven cents by offering $1.27. The main reason for the advance is that producers are not selling direct to the Standard, but are putting their oil into the pipe lines and taking out certificates, thus making on them the difference between the cash price and the speculative figure. For cash oil $1.33 was bid on the exchange and it is expected the Standard will make another advance before the day is over, and there is a possibility of $1.50 oil.

LIMA, April 9.—The Buckeye pipe line company again raised the price of Lima crude oil this morning making north Lima districts 38; South Lima, 67½; Indiana, 62½ cents per barrel.

Man's destiny is in his own hands. Pure food—cooked with Dr. Price's Baking Powder—will help him to accomplish it.

NO CHANGE IN WAGES.

Sailors' Pacific Will Be the Same as Last Year.

CLEVELAND, April 9.—The executive and finance committee of the Lake Carriers' association held a meeting here today to fix the schedule of wages to be paid on lake vessels during the coming season.

After some discussion it was decided that the wage schedule should remain the same as last year. It was stated that freight rates and other conditions were about the same as last season and for this reason it was thought best to make no change. It is probable that the association will be reorganized for the coming season.

A. W. Ramsey will be reappointed general shopping master for the association.

WHAT SOCIETY DOES.

Some Surprises and Other Affairs.

Short Personal Paragraphs of Interest to People in Society Circles—Some Institutions Issued.

Miss Jessie Bradley, of 247 East Lewis street, is quite ill.

Mrs George P. Feltz went to Bloomington, Ind., this morning.

Mr. W. D. Maier, of Chicago is spending a few days in the city.

The Wednesday club will meet to morrow with Mrs. N. W. Ludlam.

Mrs. John Yeager and son, of Pushing, Ohio, were in the city yesterday.

Miss Helen Sawyer will leave tomorrow for Goshen to visit a few days with friends.

Mesdames G. W. Pixley and J. F. Harper left this morning over the Wabash, for Indianapolis.

Miss Pearl Foster, of East Berry street, has issued invitations for Thursday evening, April 11.

Miss Emma Jenkinson will entertain a few friends with a thimble party on Thursday afternoon.

Miss Alice Worst, of South Bend, is the guest of Mrs E. W. Quackenbush, 69 Pixley and Long block.

Miss Josephine Harrison left yesterday for Richmond to visit a month with Mrs. Harry Downing.

Mrs. Charles Bond and children will leave the latter part of this week for Madison, Ind., to visit Mrs. Bond's father.

The members of the Triangle Cycle club of the Y. M. C. A. will receive friends this evening in the association parlors.

Miss E. L. Hamilton, of the High school, leaves this morning for Detroit to attend the funeral of her uncle, Mr. H. P. Case.

The Ladies' Auxiliary, railroad department Y. M. C. A., will hold a special meeting at their rooms this evening at 7 o'clock.

Mrs. W. M. Kelsey, of Columbia City, returned home yesterday after a very pleasant visit with her daughter, Miss Bertha Kelsey.

Mrs. L. D. McNutt will entertain the members of the Eastern Star on Wednesday afternoon from 2 to 5 p. m. at her residence, 500 Calhoun street.

Mrs. Stephen D. Bond and daughter, Georgiana, will arrive in the city the latter part of this week to be the guest of Mrs. C. D. Gorham for a few weeks.

The ladies' auxiliary to the B. of L. E. will give a social and tea at the home of Mr. and Mrs. Pete Carter, 194 East DeWald street, tomorrow afternoon.

Mrs. M. S. Mattson, of Division street, will go to Goshen tomorrow to attend the Women's Missionary convention, to which she has been elected as a delegate.

The tendency of present day fashions is gradually revealing itself. It seems that plain garments of the tailor made order are to be somewhat neglected, and that silks and ribbons are going to have their day.

The marriage of Miss Clara Holmes, of this city, to Mr. H. H. Morgan, at Weston Wood county, Ohio, occurred Saturday, April 6, at the M. E. parsonage at Bowling Greene, O. The ceremony was performed by Rev. J. W. Holland. Mr. and Mrs. Morgan will reside at Weston.

Last evening, in honor of Mr. G. C. Vieh, of St. Louis, Miss Ethel Ninde gave a card party and musicale, at her home on West Wayne street. The guests were Misses Georgia and Constance Lumbard, Alice Woodsmith, Mary Evans, Helen Moffat, Mrs. H. W. Ninde, Messrs Gene Olds, Ed Woodworth, H. C. Rockhill, John Morris, P. F. Smith, Will and Ben Ninde, G. C. Vieh, St. Louis.

Delegates from the First, Westminster and Third Presbyterian churches of this city who will attend the Woman's Presbyterial Missionary meeting at Goshen, will leave here tomorrow afternoon at 2:55, via the Grand Rapids and Indiana railroad. A change of cars will be made at Kendallville, the party arriving at Goshen at 5:30. The session will begin tomorrow evening and Mrs. D. W. McMat, of this city, president of the Presbyterial society, will preside.

Last evening at the home of Mr. and Mrs Hoffman a very pleasant surprise was tendered the Misses Hoffman. Games and a delicious luncheon made the evenings most pleasant one. Those present were the Misses Mabel Sego, Minnie Kress Gracie Keller, Lizzie Bohman, Mary Garrison, Nettie Wedel, Tillie Haider, Messrs. Harry Noll, Fred Lindenberg, George Grieisel, Walter Nieman, Jacob Kress, William Schaefer, Gibson Wedel, Clyde Klinger, Ed Eicher, Fred Brickner, Messrs and Meadames Bradbury, Bradley, Sharp and Hoffman.

What star shines so bright as the lustre about Dr. Price's Baking Powder? It's fame is fairly won.

There will be the advantage and benefit in Easter Saturday, July 4, 1895, as well as Easter Saturday, April 6, 1895, as the Easter Saturday, July 4, 1895, will be the same as the Easter Saturday, April 6, 1895.

MISS ELIZA NESTEL.

"The Fairy Queen" Becomes a Lady Maccabee.

Many Visiting Knights Gather at Toledo, Ohio, to Witness the Impressive Ceremony—Miss Nestel Talks.

Miss Eliza Nestel, of this city, known to the amusement world as the "Fairy Queen," was visiting friends last week at Toledo, Ohio, and while there was the guest of honor at the Lady Maccabees, of that city, into which order she was initiated as a member. The event was a memorable one in L. O. T. M. circles in that city and was witnessed by a large number of visiting ladies from Detroit, Cleveland, Tiffin and other cities. The Toledo Bee, after speaking of the meeting and the initiation of Miss Nestel as a lady Maccabee, had the following to say about her, and in the article it gave a picture of the little lady who is so well known in Fort Wayne:

"Miss Queenie Foote is the smallest lady in the world, being thirty six inches high and weighs forty-two pounds. She was born in Fort Wayne, Ind., where with her parents and brother, Commander Foote, also a tiny lady, they live in one of the most beautiful homes in the city.

"The moment she entered the hall last evening she delighted the audience and the ladies were completely captured by her chic manner. She accepted the ceremony nicely and was much pleased with the work. At the close of the initiation she made a most little speech and was presented with a miniature basket of flowers, bride roses and lilies of the valley. She had a place of honor on the platform and was seated in a tiny rattan chair. She was attired in a handsome black silk dress trimmed in jet and made in the latest style and wore a large bunch of pink carnations. Allie M. Blantern had charge of the work for the evening and the new initiation under her instruction was a success. Miss Queenie Foote will remain in the city some little time and will visit Maccabee hives.

"Miss Queenie Foote is the guest of Dr. and Mrs Munn, of 917 Broadway. She is an old friend of the doctor and his wife and this is her second visit in Toledo within a year and a half. She has traveled more or less professionally since she was seven years of age and enjoys a roaming life. She was born in Fort Wayne, Ind., where her parents, brothers and sisters reside. Her brother is Commodore Foote and he is his sister's exact height—three feet tall. Together they have traveled over this continent and abroad and have been the wonder of many persons. Miss Foote will leave for the Pacific coast the first of October, where she will enjoy a winter. When a Bee called on her this morning she was attired in an empire gown of a rich shade of red cloth and diamonds and emeralds glistened on her tiny fingers and in her ears.

"I came to Toledo to visit my friends and to join the order of the Lady Maccabees," she said. "We have an order in Fort Wayne, but I preferred to join the order in Toledo and I am at home so little that it does not matter much whether I am a member there or here."

"How tall are you, Miss Foote?"

"I am three feet tall. I began to travel when I was seven years old. In fact I have traveled so much that I am more contented when away than when I am at home."

She said her brother, the youngest in the family, would be in Toledo Saturday and that he is six feet, two inches tall. She also has several brothers and sisters who are of average height. Her father, who is a well to do Fort Wayne gentleman, is six feet tall, and her mother is five feet, eight inches.

Miss Foote is a tiny person, weighing less than fifty pounds, although she has weighed more. She is remarkably bright and entertaining and she attributes her excellent health to outdoor exercise and mingling with happy friends, of whom she is very fond.

"Small people," she said, "are apt to exclude themselves too much from the world. If they travel professionally they go to their hotel immediately after the performance and hence grow older faster than do other individuals, because they do not allow themselves to be happy. I am fond of company and have a great deal when I am at home. Three months is my limit at home. Then I like to go away. I am fond of reading and writing. In fact, about all that I do is to answer letters, for I have an immense correspondence. We are Germans born, although you would not think so to look at me."

"Miss Foote showed the Bee a photograph of a handsome residence with acres of beautiful lawn, which is her Fort Wayne home. She named the place 'Evergreen Terrace' fifteen years ago in her own room, which overlooks a large bay window, is the smallest of bedroom suites. The furniture is all small and rich, and the room is an ideal place for the little lady. Miss Foote possesses a sunny disposition, which makes her a general favorite.

"For a year and a half she has not traveled professionally and has devoted the time to visiting friends. She has just returned from an eastern trip and expects to visit in the west in the near future.

"She is very fond of pretty dress and says that she recently attended millinery openings in one day. She visited several millinery openings in Toledo yesterday. She dresses in all periods here and has not had a fashionable dress since she was a child. She is very fond of pretty dress and says that she recently attended millinery openings in one day. THREATENS DYNAMITE.

William Kress Arrested at the Instance of His Wife.

Mayor Oakley Tells the Base Ball Managers That Sunday Games Can Not Be Played.

There was quite a police court this morning, Mayor Oakley presiding.

William Kress was a young man on trial charged with a murderous assault on his wife, whom he married about a year ago. It appears that the couple live at No 153 Union street, and that last evening the husband came home very much under the influence of liquor. He was abusive and quarrelsome and struck his wife twice. The woman ran screaming to the home of Mrs. Allen, next door, and the husband went down town for more liquor. Mrs. Kress alleges that her husband had a razor and says she fears he will kill her. About midnight Kress came back to the house, and not finding his wife at home broke the lock on the door of Mrs Allen's apartments and was about to enter, when that lady picked up a big club and threatened to brain him if he came within. Kress then threatened to dynamite the house and blow the entire block to minute particles. Officer Spillner arrested the man about 1 o'clock and he was locked up for the night. This morning the mayor fined him $14.50 and he went to jail in default of the cash.

James Dimon was given $5 yesterday by a saloonkeeper to go out and get some change. Dimon went, and so did the cash, for neither showed up. Officer Elliot found the prisoner, very drunk, and sent him to the station. He went to jail for ten days.

John Clark was a vagrant arrested yesterday on West Berry street by Officer Patton. The man was begging. He went to jail for fifteen days.

Louis Gibson, an old offender, was arrested by Officer Hardenford. He went to jail for ten days for drunk.

Jerry Keller was a drunken vagrant arrested by Officer Tannor. He was sent to jail for ten days.

Hubert Habig was fined $10.50 for assault and battery and also $14.50 extra for carrying a revolver. Habig was mixed up in a fight night before last. Edward Roemer was also fined $10.50 for being mixed up in the same fight.

NO SUNDAY BASE BALL.

Mayor Oakley has come out firmly against Sunday base ball. In this morning's Gazette he is quoted as saying:

"The playing of base ball on Sunday is an open and flagrant violation of the law and I would throw discredit upon my whole course as mayor of the city if I consented to have this violation of the law planted in the face of the people of Lakeside or any other suburb of Fort Wayne. No, sir, there will be no Sunday base ball, and the superintendent of police has instructions to put behind the bars the entire outfit the moment it is attempted."

Since the foregoing was written Manager Jewell and John McDonald called on his honor and, in answer to their inquiry, were told that Sunday base ball would not be allowed. Jewell and McDonald left in anything but a tranquil mental condition. In fact, they were very mad and said they were doubtful if base ball would be played in Fort Wayne at all this summer.

A Startling Admission.

In New York City, for five consecutive years, the proportion of Deaths from Consumption has been three in every Twenty Persons.

Epidemics of Cholera, Yellow Fever and other diseases of similar character are terrible in their results, as cities and people stand and invite them—not careful enough caution for the prevention of such. While consumption receives scarcely a thought, yet the number of deaths from this source into Insignificance when compared with those of consumption. Consumption is few people know what to do for them. Local cases where they see them speedily yield to Piso's Cure, manifest feeble attempts and relapses than, or develop a cough with difficult breathing or lung change. God never ordained a thing that was not of much value, but the good success attending its use complied with its marvelous merits has led many practitioners as well as the people at large, to place their main reliance on Dr. Pierce's Golden Medical Discovery. Relieves early attention and proper medicine will in every case but one in a large percentage of cases, and we believe that fully 98 per cent of all cases of consumption can be cured in the early stages of the disease be cured with the "Discovery." Dr. Pierce does not ask people to believe until they have investigated for themselves. Many have been published describing their cases, addresses and photographs of a large number of those cured of consumption by the "Discovery." WEATHER PROPHET FOSTER predicts heavy rains from the 11th to the 20th, and then a warm wave will sweep over the entire country

DO NOT pay rent you pay income tax, if you receive rent you do not pay income tax. Thus say the wise men of the United States supreme court

STRONG death coming as it has within the last few days to two of our well known business men reminds us how uncertain is the span of life and how unexpectedly it may be cut short.

THE sound of the hammer and the saw and the trowel in the different parts of the city bears evidence of the beginning of the building boom, which promises to be greater this summer than it has been for several years past.

THE Lenten season will end this week. Easter will be here next Sunday. Then society will put on its gay garb again and renewed activity will be seen in every part of the social world, which has been pretty dull in this city ever since the beginning of Lent.

THE old soldiers, whom we all love to honor, are one by one passing from our midst. The reports of the department of Indiana G. A. R., recently forwarded to national headquarters, show 580 posts in this state, with a total membership of 21,918, a net loss of 2,397 during the year.

THE state conference of charities, which was to have held its fourth annual session at Fort Wayne in the last week of April, has postponed the meeting until October. This has been made necessary by the inability of the local committee in this city, because of unavoidable hinderances, to make the necessary arrangements.

THE income tax law got a pretty bad black eye at the hands of the supreme court of the United States. An even half of the court believe the law is unconstitutional and therefore null and void in toto. The whole of the court strikes out the best and most equitable portions of the law and leave it in a mangled and forlorn condition.

THE issue of last Sunday's Evansville Courier was printed on yellow paper and contained twenty-four pages of interesting local and miscellaneous reading matter. It was commemorative of the Easter holidays and was an issue which was creditable to its editors, who are getting out one of the best newspapers in southern Indiana.

LAST evening the Fort Wayne Freie Presse, our excellent evening German contemporary appeared in a handsome new dress Under the management of Mr. Carl Sauer the Freie Presse has been greatly improved and is now an all home print, eight-column folio 24x39 inches in size, and full of interesting local reading matter. THE SENTINEL wishes the Freie Presse success and prosperity.

PRESIDENTIAL politics may seem to be a long way ahead Congress is not expected to convene until December, and the national conventions are more than a year distant Nevertheless, movements on behalf of various candidates are displaying considerable activity and some of them are working up their own presidential booms in great style only to see them "bust" when the decisive hour comes

IT is the intention of the city authorities to push improvements at the Swinney park and a force of men will be put there this week. The park will be a breathing spot, a place for recreation during the hot summer months and its improvement will be a good thing for our city. Work on it just at the present time should be pushed because it will furnish employment to the many who are out of work.

AGAIN no arise to remark, as we have done frequently heretofore, that the board of public improvements would be doing a good thing if it were to erect a dozen or more drinking fountains at different points in the business centers of the city. During the summer days that are now coming so rapidly these fountains, where man and beast can get a cool, refreshing drink of water, are a public blessing and the city needs more of them than it has at present.

THE effect of the supreme court decision on the income tax law so far as the treasury department officials can determine after a hurried estimate made Monday afternoon will be a reduction of about one-half in the revenue originally estimated as obtainable from that source, thus making the annual revenue to be expected about $10,000,000. The original estimate of $30,000,000 per year was based on the assumption that the law would be held to be constitutional in all its provisions Collectors of internal revenue will be notified of the decision and instructed to make whatever corrections may be necessary through the decision rendered, in the blank form furnished them by the commissioners of internal revenue. No new forms will be issued, and the work of preparation for the collection of the tax will proceed without delay.

WILL the next President come from the west? Dr. Price's Baking Powder is favorite in every Western State.

Inheritance and Income Taxes.

Of interest to Americans at present will be Lord Playfair's paper on this subject in The North American Review. He calls attention to the fact that for the first time in English history the budget recently prepared by Sir William Harcourt, chancellor of the exchequer, "makes a bold and permanent application of the principle that large estates, both personal and real, should pay death duties in proportion to their size." In accordance with this idea, Sir William's scheme provides that the person who inherits $500 shall pay to the government 1 per cent, on $5. One inheriting property worth $5,000 must pay the government $100 on taking possession. An estate worth $50,000 must pay 3 per cent, and so on. An estate of $5,000,000 is taxed 3 per cent, and the inheritor must therefore pay to the British government $150,000. What a cry would be raised in this country if such a tax should be attempted!

In England Lord Playfair tells us it is a plainly understood principle that the rich must pay taxes in greater proportion than the poor. They must procure licenses for keeping carriages, for displaying armorial bearings and even for the right to have a footman with powdered hair. There seems to be no question about the justice of the principle.

Lord Playfair affirms that the income tax scheme, both in the United States and Great Britain, plainly contemplates a graduated scale. In America under the new tax law all incomes below $4,000 are exempt. In England all above $800 are taxed. It is to be noted that Lord Playfair says: "These changes in the system of English taxation have not been made without violent opposition by the wealthy classes. The adoption of graduation is a sign that democracy has largely increased its power in English politics." He further declares that if accumulated wealth is unwilling to pay public expenses according to ability it will lead to disastrous results in the way of forfeiting popular belief in the "awful sacrings of communists and anarchists." This growing tendency induced the Liberal government of Great Britain to concede progressive death duties. Lord Playfair says wealthy people could transmit estates intact to their heirs by getting their lives insured for enough to cover the death duties. He also quotes this saying of the Earl of Derby: "I have learned more and more forcibly the uselessness, to put it on no other ground, of attempting to resist the progress of popular ideas, and I have come to think more and more highly of the moderation, the fairness and the general justice with which the masses of men, including all competitors of life, are disposed to use their power."

The finishing touches already put to the modern monitor Amphitrite at Norfolk mark the advent of a new vessel for the United States navy. She is designed for coast defense, but she can go as far as Cuba or Nicaragua

In all the affairs of this life it is a very important thing to have plenty of tallow Want of tallow was what kept the St Paul from being successfully launched.

Li Hung Chang got sick just at the right time to divert the attention of the Chinese government from the discrepancies in his state bookkeeping

THAT DEATHLY FEELING

People Often Speak of Having "Deathly Sensations."

What Are the Actual Sensations of Death?

Are There Really Any Feelings of Pain When Death Comes?

Everybody has heard or used the expression, "that deathly sensation."

By it is meant the awful sinking sensation—the feeling of terrible dropping away from us, as it were, of vitality as the life principle wanes and ebbs to ward death

Death itself is doubtless painless, but the awful sinking sensation which precedes death has been described as worse than pain

Nervous people frequently have this dreadful feeling, and many who have been through the experience will recognize at once the graphic description of Mrs P. J. Stockwell, of Wallsfield, Vt., who says:

"I had complete nervous prostration and was confined to the bed most of the time for two years It took the form of mania and I thought I must soon die. It began as nervousness and kept growing worse.

"I was unable to do any work There were times when for a week I did not sleep hardly any. When I got up I was more exhausted than when I went to bed I had a terrible deathly sensation, worse than any pain

"My stomach was terribly weak and my food distressed me constantly. I was completely prostrated. I paid large sums of money for doctors and treatment, but they did me no good.

"I employed the best medical advice in this state and New York, but got no better. Then we saw Dr. Greene's Nervura blood and nerve remedy advertised and I determined to try it.

MRS. P. J. STOCKWELL.

"I had not used one bottle before I felt better. I continued to steadily improve under its use. I am now a well, healthy woman, able to do my own work. I have good digestion and appetite, sleep well and am always cheerful.

"This is what Dr. Greene's Nervura blood and nerve remedy has done for me. I heartily recommend it to everybody. It is a wonderful medicine."

The whole world is amazed at what is being done by Dr. Greene's Nervura blood and nerve remedy. Nothing like it has ever been known before. It makes the nerves strong as steel, the blood pure and rich, the skin soft and beautiful, and gives to the eyes that brightness and sparkle which indicate perfect health.

There are thousands upon thousands of weak, nervous people, depressed in mind and debilitated in body, particularly at this season of the year, who can be made strong and well by this splendid remedy. It will be found the best spring medicine that one can take, for nothing so quickly and surely gives strength of nerve, invigoration of blood and healthful action of all the organs, as Dr. Greene's Nervura blood and nerve remedy.

It is not a patent medicine, but the prescription of the most successful living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St., New York City. He has the largest practice in the world, and this grand medical discovery is the result of his vast experience. The great reputation of Dr. Greene is a guarantee that this medicine will cure, and the fact that he can be consulted by anyone at any time, free of charge, personally or by letter, gives absolute assurance of the beneficial action of this wonderful medicine.

MIXED THEM UP.

The Internal Revenue Officials in a Grave Quandary.

The Supreme Court Decision in the Income Tax Cases Plunges Them Into Uncertainty.

WASHINGTON, April 9—The decision of the supreme court yesterday in the income tax case has plunged the internal revenue officials into almost inexplicable mysteries and trouble and the more the decision is studied the greater seems to be the difficulties attending a clear understanding of its scope The declaration that rents and incomes from real estate are exempted, has opened up questions very difficult of solution. The question has arisen for serious consideration whether the effect of the decision is not to include not only rents proper, but all profits of whatever character growing out of real estate, including farm products, timber, coal and all mine products within the exempt class, so that all real estate, including buildings thereon, with whatever else is held by law to be a part of the realty will be entirely exempt from tax. Whether losses sustained through bad rent debts, the amount of expense incurred in collecting rents or repairs on houses are to be deducted from income is also a most question. Under the decision rents are not to be included in assessing the income tax.

BOARD OF WORKS.

They Make Final Decision on a Number of Matters.

The board of public works held another meeting yesterday afternoon and decided to pave Hanna street from Creighton avenue to Ninth street with vitrified brick. There was quite a remonstrance but it was disregarded as it did not cover two-thirds of the resident property holders.

The resolution to pave Lewis street from Calhoun street to Lafayette street was also confirmed, although nearly two thirds of resident holders of property remonstrated. The pavement will consist of four inches of vitrified fire brick, two inches of sand and six inches of concrete.

The new sidewalk for Clinton street was thoroughly discussed and a remonstrance read from some of the property holders against the pavement, but the board confirmed the resolution. This means a flagstone pavement on both sides of Clinton street from Berry street to Columbia street.

A resolution to grade the alley between Eliza and Hayden streets from Ohio to McCulloch streets passed.

Other routine business was transacted.

The labor question is not more important than the pure food question. The latter can always be settled by using Dr. Price's Baking Powder.

LOOK OUT FOR ALLISON.

The Long Headed Cincinnati Enquirer Discusses Republican Politics.

The dangerous candidates for the Republican presidential nomination are Allison of Iowa, Reed of Maine and Ben Harrison. It is the belief among the long headed that within the next year whatever there may be now of strength for McKinley will have been largely dissipated, because it will then be apparent that the Republicans cannot hold the northwestern states with a candidate committed to ultra protection theories.

Up to about the close of the recent congress Reed was far in the lead. Like others, however, who have had the presidential itch, he was forced to a showing which he would much preferred to have passed over. This was his vote on the proposition for gold bonds. The vote, though given no doubt with honest sincerity, lost him perforce a strong following in the far west. It has now drifted away, and the leaders from such quarter are beginning to more than previously consider Allison.

It is evident that as Reed loses strength Allison acquires it. He is, happily, not on record with ultra views on either the tariff or silver. It is recognized even by the most ardent friends of the principle of protection that the Republican party cannot afford at the next election to make a campaign on radical lines. It is because McKinley is the apostle of protection that he is weak. His strength is his gentle character, good looks and noisy friends.

Mr. McKinley will also be weakened by the espousal of his cause by Mayor Strong of New York. Strong is leaning to such a point of independence that neither his friends nor his enemies know how to place him. What is not wanted from a man in the White House, and to the success of such influence Ohio's governor suffers.

Every Woman Told Her Age.

A large squad of Kansas City society women strolled into the registration office and told their ages, contrary to all rules governing such matters among the feminine persuasion. In return for this noble sacrifice they received the little yellow slips entitling them to a say in the coming election. They did not wear bloomers. The fair creatures walked into the city hall with an air that meant, "Well, we'll be on the politics force in a few years."

Over 52 women of both shades registered yesterday, making the number in the vicinity of 1,800 altogether.—Kansas City Times.

McKinley and the Presidential Lightning.

When asked about his presidential aspirations in Atlanta recently, Governor William McKinley of Ohio said: "As to that, I prefer to say nothing. It is true that many friends from all parts of the country have come to me with assurances of support, and that is of course highly gratifying. What shape things will take in 1896, so far as party nomination is concerned, I cannot, of course, say. I am not talking politics or even thinking politics these days—am out of it, you might say."

Will women rule in the next century? They rule now where Dr. Price's Baking Powder is used

Sizing Up the Ability.

As is well known, Congressman Allen of Mississippi is the humorist of the house and he is undeniably funny at times. He has no rivals, but one or two or more of his colleagues have a fine ring to the claim they ought to share a few of the honors with him. One of these was talking to him one day in the cloakroom.

"I don't see why it is," he said, "that you make such a hit with your speeches. You never make one that the whole house doesn't come down, and sometimes when they laugh I don't see very much to laugh at. Now, some things I say I think are pretty fair, and in my own district I have quite a reputation as a humorous speaker. Here, though, I don't seem to be able to make them laugh, and I try my best."

"I suppose you want to," replied Mr. Allen, ignoring the other portions of the gentleman's remarks.

"Well, yes, I shouldn't object," admitted the gentleman.

"Do you want me to tell you how?"

"You could do it if anybody can. Of course I'd like to have you tell me."

"Well," explained Mr Allen in an almost tragic whisper, "try to make them cry."—Detroit Free Press.

Injured Wife—What, goaway and leave him alone to do just as he likes? Not me.—London Answers.

VENO AND THE G. A. R.

W. J. Kerstetter, of the Soldiers' Home Dayton, O., Cured by Veno Remedies.

After Four Years' Suffering—Attended by Many Physicians Without Relief—Life is Entirely Cured by Veno Remedies.

W. J. Kerstetter, late Secretary Soldier's Home, was a terrible sufferer for four years from dyspepsia, neuralgia and liver troubles, and was a confirmed invalid, more or less, for that length of time. Many efforts had been made to cure him, but all proved unavailing until Veno's Remedies were taken. He writes as follows:

"I have taken Veno's Curative Syrup and feel better than I have for four years. If I had taken these remedies in time I would not have been an invalid." The same is said by thousands of others all over America.

The Veno Remedies are medical triumphs of the present age, from the ancient in Europe and are different from anything ever offered before.

Veno's Curative Syrup cures a bowel, is a positive cure for weak stomach, dyspepsia, biliousness, nervousness, troubles, sleeplessness, poor appetite and general debility. Veno's Lightning Liver Pills, used with Veno's Electric Fluid, will certainly cure the worst and most desperate forms of rheumatism, neuralgia, nervousness, sciatica, pain, religia, stiff joints, weak muscles, numbness, any aches and pains.

Veno's Lightning Cough Cure a positive, is a specific for throat and lung trouble, asthma, bronchitis, coughs, colds, whooping cough, etc.

The Grand Army men expect to be present in great numbers at the dedication of the Chickamauga battlefield as a national park Sept. 19 It will be a memorable day for the old soldiers of both north and south. President Cleveland will be present to dedicate the grounds. The day before, on Sept. 18, he will open the International and Cotton States exposition at Atlanta. The Grand Army men will have opportunities to visit the exposition as well as attend the ceremonies at Chickamauga.

A retired British officer, Captain Percy H. Chamberlain, committed suicide because he felt "a most complete tiredness" of all things earthly. But it is possible that Captain Chamberlain will soon be still more tired of the place in which he now is.

"Now, Gen'ral, you're jested; come give us your views.
In a brush at the front what's the power to use?"
He winked at a star as he pulled his cigar,
And slowly replied, "In a brush at the front
I never use powder, but—SOZO. DON'T."

For chapped hands use Grand Mo'n Delight.

Her Appearance

speaks louder than words. She doesn't use Pearline. She's worn out with hard work. Household drudgery, you can see, has told upon her. Possibly you are a woman who is going the same way. Now, these are days when such things needn't be, for most women. Labor savers are all around you, and, for woman's work, Pearline heads the list.

Take advantage of the hints of science. They are broad enough to the bright, and they help the lowest kind of work as well as the highest In every sort of washing and cleaning, let Pearline help you.

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline he THINKS he can make more by the operation. 661 JAMES PYLE, New York.

The U. S. Gov'ment officially reports ROYAL Baking Powder superior to all others in leavening strength (*Bulletin 13, Ag'l Dep't, p. 599*). It is the best and most economical.

Graham Griddle Cakes.

One pint Graham flour, ½ pint corn meal, ½ pint flour, 1 heaping teaspoonful brown sugar, ½ teaspoonful salt, 2 teaspoonfuls Royal Baking Powder, 1 egg, 1 pint each of milk and water. Sift together Graham flour, corn meal, flour, sugar, salt, and powder. Add beaten egg, milk and water. Mix together into a smooth batter without being too thin (if too thick it will not run but break off and drop). Heat griddle hot, pour batter into cakes as large as a tea saucer. Bake brown on one side, carefully turn and brown other side. Pile one on the other, serve very hot, with sugar, milk, cream, or maple syrup.

Rye Griddle Cakes.

One pint rye flour, 1 pint Graham flour, ½ pint flour, 1 tablespoonful sugar, 1 teaspoonful salt, ½ teaspoonfuls Royal Baking Powder, 1 egg and 1 pint milk. Sift together rye flour, Graham flour, sugar, salt and baking powder, add beaten egg and milk, mix into smooth batter. Bake deep brown color on hot griddle.

Rice Griddle Cakes.

Two cupfuls cold boiled rice, 1 pint flour, 1 teaspoonful sugar, ½ teaspoonful salt, 1½ teaspoonfuls Royal Baking Powder, 1 egg, little more than ½ pint milk. Sift together flour, sugar, salt and powder, add rice free from lumps, diluted with beaten egg and milk; mix into smooth batter Have griddle well heated, make cakes large, bake nicely brown, serve with maple syrup.

A DULL DAY.

Nothing Doing of an Unusual Nature on Rail or in Shop.

A Few Locals and Some Personal Gossip Was the Extent of the Reporter's Catch on His Rounds.

Fred Boegle, the moulder, is visiting relatives in New Haven.

John Kelley, of the Pittsburg boiler shop, is off duty on account of sickness.

Sousa's band left over the Wabash this morning. They occupied a special car.

Blacksmith Al Throckemorton is again afflicted with rheumatism and is off duty.

Blacksmith Ellis Mercer, of the Bass works, is confined to his home by sickness.

William Mills, after a week's illness, reported for duty at the electric works this morning.

Miss Lida Doorman, of the electric works, is off duty on account of the death of her father.

Engineer Cooper and Fireman Frass, Murray and Redson, of the Nickel Plate, are enjoying a few days' rest.

F. H. Wolf, Nickel Plate brakeman, who had a finger crushed last week, resumed his duties on the road today.

Brakemen W. C. Raffalt and W. Imbody have resumed their runs on the Nickel Plate, after a few days' lay off.

Conductor Cliff Ellenwood's condition remains unchanged. He is still bedfast, suffering with neuralgia of the stomach.

Gus Freimuth, for some time employed in the machine room at the electric works, has resigned to engage in other work.

Henry Crawford, who has been afflicted with a severe cold, is better and this morning resumed work at the electric works.

The new Findlay, Fort Wayne and Western engine took the local freight out this morning, with Engineer Shea at the throttle.

William Frick, foreman of the rim department of the Rastetter bending factory, and Miss Katie Slusher will be married this evening.

Nickel Plate Conductors George Hirsh and F. Stone, who were taking a short vacation, returned to their respective trains yesterday.

Wabash engine No. 19, recently thoroughly overhauled, has been assigned to freight duties on the first district, Toledo to Andrews.

Herman Basta, of the Wabash shops, and Mrs. Basta will leave in a few days for Chicago, where they will be the guests of relatives about ten days.

George Wilkinson and Henry Rehling resumed work at the Bass machine shop this morning, having recovered from their recent sick spells.

Nickel Plate Brakeman Shragg was taken sick at Bellevue yesterday and had to be relieved from duty. A brakeman went out from this city to take Shragg's place.

Charles E. Wright, the genial and efficient clerk at the Wabash shops, is being congratulated today upon his arrival at man's estate, he being now twenty-one years old.

Henry Riler, one of the veteran machinists of the city, has recovered his health and this morning resumed his old position in the Bass shops after an absence of two months.

J. M. Gaskill, Patrick Walsh, C. Christenson, P. Weisner and C. Kruse, of the Pittsburg paint shops, are off duty on account of a scarcity of work in their particular line.

Pittsburg trainmen report high water in all the streams in Central Ohio. That section of country was visited by a heavy rain storm which lasted all Sunday night and part of yesterday.

Mr. and Mrs. George Patterson and children, of Wellsville, Ohio, are visiting relatives in this city. Mr. Patterson is a machinist and formerly worked in the Pennsylvania shops in this city.

O. A. Shauman, for several years agent of the Wabash at Roann, and later manager of the Western Union telegraph office at Wabash, has been appointed clerk of the steamer "Lawrence," which the Graham & Morton people are running between Benton Harbor and Chicago, in place of the ill-fated "Chicora."

Superintendent Worchester and Traveling Passenger Agent Brown, of the Lake Shore road, are registered at the Randall today.

Dick Regal, of the Bass machine shop, went out angling Sunday for the first time this season, and returned home with a fine mess of sun fish, after getting thoroughly drenched with rain

Fireman Staples, of the Nickel Plate, who had the misfortune to sprain one of his wrists by a fall three weeks ago, has so far recovered as to be able to resume his work. He reported for duty yesterday.

Ticket Receiver J. C. M. Baker, of the Pittsburg, is fancying his property on South Calhoun street, preparatory to putting out a quantity of small fruit plants, such as grapes, blackberries, raspberries, etc.

Superintendent of Motive Power G. L. Potter, Master Car Builder J. A. Graham and Chief Draughtsman William Stephen, of the Pennsylvania, left last night on No 8 for Altoona on business for the company.

The work of putting in a new transfer table at the Pittsburg machine shop is now in progress. The table will be four feet longer than the old one, which was too short for the convenient handling of modern engines.

Extensive improvements have been made to the shops of the Baltimore and Ohio Southwestern at Washington, Ind. Among other things an electric plant has been put in and the shops were lighted by electricity Saturday night for the first time.

Judge R. S. Taylor will leave this evening for New York. Business connected with the Electric corporation takes him to that city. Messrs. R. T. McDonald, C. S. Knight, Brainard Rorison and J. J. Wood, of the company, are already in New York.

Indications are that the New York, Pennsylvania and Ohio will get out of its financial troubles. Arrangements have been made to exchange its $8,000 000 of prior lien bonds, drawing 6 per cent. interest, for an equal amount of 4½ per cent bonds, payable in forty years.

Contractor John Sultzer left this morning for Rowe City, where he will build a couple cottages and repair some others. Edward Gilmartin was not at the depot this time, and Mr. Sultzer got upon the right train. It was different two weeks ago when Mr. Gilmartin lead the way.

Nickel Plate engine No. 39, which had been in service on the western division of the line, has been transferred to the eastern division and will hereafter run between Bellevue and Conneaut. This change necessitated a change in the crews of other engines and Engineer Huxley and Fireman Hurlbert, who had No 39, have taken engine No. 29, and Engineer Joseph Brackt and Fireman Street, of the latter engine, have taken No. 4.

CLARA'S ENGINE MAKES A GOOD RUN

The Indianapolis Journal says: "Friday last a remarkably fast run was made on the Panhandle by train 9, the east-bound express. The train, which consisted of twelve cars, left Steubenville thirty minutes late, and made the run from Wheeling Junction to Pittsburg, forty-two miles, in fifty-five minutes. The train was hauled by a class V engine [built at the Fort Wayne shops]. Only those who are acquainted with the road between Steubenville and Pittsburg can fully appreciate what this run means. No wild or reckless sprints, it is stated, were indulged in, but the time was made steadily up and down hill, the fastest run being made between Bulger Summit and Willow Grove, where for some distance a mile a minute was maintained."

WILL ADOPT TONNAGE METHODS.

The Panhandle company has reached such favorable results through the tonnage system of making up trains that the plan is to be introduced on the Pittsburg, Fort Wayne and Chicago lines, says a Chicago paper, and the same authority goes on to say: "The difference in the pulling power of the locomotives of the Fort Wayne does not amount to much, and when an engine failed to take its train over the hill it was owing to the fact that the total tonnage in the train it was hauling was occasionally equivalent to thirty ordinary loads. It is an easy matter to perceive how, under such circumstances, one engine was sent out with from three to four cars less than its pulling capacity, while the engine of the following section might have, with the same, number of cars as the first, a much heavier train to contend with, and consequently fail to get over a grade or lose time, causing delays and annoyances that could not be well obviated. In the future all Fort Wayne class B engines will be loaded on a tonnage basis, with 1,100 tons as the limit. The yardmasters and conductors have been instructed to get the light weight of each car, the weight of the load, and then add eight tons to each car as an allowance for resistance. In this simple, methodical manner they are enabled to tell how many cars are required to make up a train, and they keep on adding cars until they reach the limit of 1,100 tons. If the cars are loaded with heavy material, such as coal, iron, stone, cake or shelled corn, the number of cars in the train will be less, and when the material that constitutes the load in cars is bulky and light, a greater number of cars can be handled in one train section."

Love and Taxes.

It would be interesting to know if there is any connection between the unusually large number of matrimonial engagements that are being announced these days and the movement to tax bachelors. Let's hope not for true love's sake.—Boston Herald.

I have been afflicted with catarrh last autumn. During the month of October I could neither taste or smell, and the slightest cold settled in my head. The Balm is quickly absorbed and relief is immediate.

Huckleberry Griddle Cake.

One half pint huckleberries, 1½ pints flour, 1 teaspoonful salt, 1 tablespoonful brown sugar, 2 teaspoonfuls Royal Baking Powder, 2 eggs, 1 pint milk. Sift together flour, sugar, salt and powder, add beaten eggs, milk and huckleberries (washed and picked over). Mix into batter that will run from pitcher in thick, continuous stream. Have griddle hot enough to form crust soon as batter touches it. In order to combine juice of berries, turn quickly, so as to form crust on other side; turn once more on each side to complete baking. Blackberry or Raspberry Griddle Cakes in same manner.

Apple Fritters.

Four large, sound apples, pealed, cored, and cut each into 4 slices, ½ gill wine, 2 tablespoonfuls sugar, 1 teaspoonful Royal Extract Nutmeg. Place slices of apples in bowl with sugar, wine and extract, cover with plate, set aside to steep two hours, then dip each slice in Common Batter, fry to light brown in plenty of lard made hot for the purpose, serve with sugar.

Buckwheat Cakes No. 2.

To 14 pints pure buckwheat flour, add 1 pint each wheat flour and Indian meal, 3 heaping teaspoonfuls Royal Baking Powder, 1 teaspoonful salt, 1 tablespoonful brown sugar or molasses. Sift well together in dry state, buckwheat, Indian meal, wheat flour, and baking powder, then add remainder, when ready to bake add 1 pint water or sufficient to form smooth batter that will run in a stream (not too thin) from pitcher; make griddle hot and cakes large as a saucer. When surface is covered with air holes it is time to turn cakes over, take off when sufficiently browned.

Quick Buckwheat Cakes No. 1.

To 1 pint buckwheat flour, while dry, add 2 heaping teaspoonfuls Royal Baking Powder, teaspoonful salt, 1 scant tablespoonful brown sugar or New Orleans molasses to make them brown, mix well together; when ready to bake add 1 pint cold water or sufficient to form a batter, stir but little, bake immediately on hot griddle. The baking powder should never be put into batter, but always mixed with flour in dry state. Some prefer addition of a little wheat flour and Indian meal, like No 2

I find the ROYAL BAKING POWDER superior to all the others in every respect. It is purest and strongest.

LOTTIE COLLINS AND THE WATER.

She Ordered Simply Beer, but He Brought Up Champagne.

Lottie Collins had an experience in one of the western towns she visited during her professional tour. After the performance she went to her room in the hotel and ordered a lunch to be brought up for herself and one or two of the female members of the company. The waiter who responded to the call bell was a white man. They had ordered a very light repast, with just a bottle of beer to top it off, but when the young man returned they were surprised to find themselves served with a sumptuous supper and three bottles of champagne.

Miss Collins was surprised. So were the others. The waiter began to stutter, grew red and confused, still standing at the door with the heavy tray in his hands. The more the Ladies priet into the business the redder the young man grew, and he was probably glad when the heroine of "Turn-a-Penny-Bow-ay" opened the door and allowed him to disappear, with only a kick of a verbal nature.

There was an inquiry into the affair on the part of the management of the company, and it was found that the young man was the son of a rich jobber of the town and a society swell. He had drilled some one about the hotel to allow him to impersonate the waiter in serving the actress at her room and had taken that occasion to obtain access to her privacy.

An irate manager promptly bounced the next morning at the office of the jobber, and the youth made another call at the actress' room that night. He was conveyed by his father, however, who made him get on his knees and offer a very abject apology for his misconduct. —Washington Post.

When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

HE WAS RESTRAINED.

By the Firm Belief That He Was an Idiot He Acted Not to Stay.

The policeman was standing dreamily on the dock looking out over the effluvium mussing river when a man, evidently from the rural districts, came up to him excitedly.

"Say, Mr Officer," he exclaimed, "is the water there deep enough to drown a man of my size?"

"Well, I should smile," grinned the officer.

"Jes s'pose I'd drown it I'd jump in to it?"

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A TOP FOR EVERYBODY.

Can Be Used in the House or Out of Doors.

It has a great advantage over most tops.

When its powers of amusement are exhausted it can be used as an ink stand.

The application of the principle of fly wheel, together with the material used in its construction, which lessens the friction, makes the Top run longer than any made.

The Top will walk the rope.

MUNYON'S
GREAT WORK.
THE PUBLIC SURPRISED.
PHYSICIANS ASTONISHED.

The Philadelphia Times truthfully says: "Munyon is to medicine what Edison is to electricity."

The marvelous cures which have been made by the use of his little sugar pellets have astonished physicians of all schools, and will undoubtedly revolutionize the whole practice of medicine

The professor believes there is a cure for every disease and the people should die only of old age or by accident

His system is to build up and not to tear down, to strengthen, not to weaken.

Professor Munyon does not claim that he has one remedy that will cure all complaints, but that he has prepared a specific cure for nearly every disease He does not claim that his rheumatism cure will cure consumption, dyspepsia or any other complaint, but he does guarantee that it will cure rheumatism His dyspepsia cure is prepared expressly to cure dyspepsia; his cough cure to cure cough, his catarrh remedies to cure catarrh, his kidney cure to cure kidney troubles The same may be said of all his different remedies.

He has prepared them in a manner which enables the rich and the poor to obtain them for the small sum of 25 cents from any drug store. They are absolutely harmless, pleasant to take and may be carried in the vest pocket.

A valuable little book called the "Guide to Health" has been issued and can be had of any druggist free, which intelligently sets forth in plain, simple language how anyone may cure themselves.

Munyon's Rheumatism Cure never fails to relieve in one to three hours and cure in a few days. Price 25 cents.

Munyon's Dyspepsia Cure is guaranteed to cure all forms of indigestion and stomach troubles. Price 25 cents.

Munyon's Catarrh Cure Soothes and heals the afflicted parts and restores them to health No failure; a cure guaranteed. Price 25 cents

Munyon's Liver Cure corrects headache, biliousness, jaundice, constipation and all liver diseases

MISS HALLADAY-TEMPLE SCORCHER

To be held in our establishment during the coming month. Her SUPERB FORM is a composition of beautifully outlined curves of which Mme. Yale would be justly proud. With her NARROW TREAD her weight does not exceed 22 pounds. She challenges the world for Strength, Rigidness of Frame and Steadiness. She manifests EASE OF CONTROL while riding. Her Enamaled face of a deep Maroon color, elegant trimmings and lustre of finish are beyond comparison. She is protected by the latest improved Goz. Griswold rubber mud and dress guard. Her PATENTED CRANK ATTACHMENTS, DUST PROOF Bearings and Chain Attachments will be shown you and their use explained. She will receive you in any of the POPULAR TIRES with a double guarantee,

Respectfully yours,

MORGAN & BEACH.
